## About Me

I am deeply passionate about designing and deploying AI-powered solutions that solve real-world problems and drive tangible business value. My academic journey and hands-on projects have shaped me into someone who approaches AI not just as a technology, but as a strategic enabler for innovation and impact.

## WORK EXPERIENCE

Jan 2023 - Apr 2025

InsoFreshSG

### Administrative Assistant

- Supported daily operations with a focus on logistics coordination, inventory management, and administrative efficiency.
- Collaborated closely with team members to organize and package shipments.

## PROJECTS

### Deep Learning

- Successfully implemented a Generative Adversarial Network (GAN) to generate handwritten letter images from the EMNIST dataset.
- Built and trained deep learning models using TensorFlow/Keras, including CNNs, RNNs, and GANs for image and sequence data.

### "Odela" - my app idea

- A solo private project I have been developing curated to tourists in a foreign country
- Applies real-world use of sentimental analysis and predictive modelling that aims to guide tourists to the best spots in the area and hidden gems.

## CCA

**SP Symphonic Band**
